

REQUEST TO CHANGE MPH CONCENTRATION

An MPH student who wishes to change concentrations must first apply to and be accepted by the prospective department. The student should request to have their original application file forwarded from their current department to the department to which they are applying.

Instructions: The student should complete this form, attach a personal statement explaining the reason for changing concentrations, and forward to the Director of Graduate Studies in their current department. The *Request to Change MPH Concentration* form and the student's application file will then be forwarded to the prospective department.

I _____ (student) _____ (person number)

request to have my application file forwarded to

_____ for review.
(department)

(signature of student)

(Director of Graduate Studies)

(date)

The decision of the prospective department is to:

- Recommend acceptance effective: Fall 20 ____ Spring 20__
- Recommend rejection (return student file to current department)

(Director of Graduate Studies)

(date)

Copies of the final decision should be forwarded to:

- Cc: Student
- Director of Graduate Studies (current and former concentration)
